Robert G. Freidenrich  
Chief Executive Officer  
Bio Compression Systems, Inc.  
120 W. Commercial Avenue  
Moonachie, NJ 07074

Dear Robert,

We are always looking for any type of treatment or modality to help our athletes get back out on the field or court as safely and quickly as possible. We have specifically been looking for a sequential compression modality to use in the training room. We were fortunate to discover THE BIOCRYO SYSTEM in the National Athletic Trainers Association News.

We are very excited to have THE BIOCRYO SYSTEM in our athletic training room. The ability to combine sequential gradient compression with cold therapy is awesome. We have also combined using muscle stimulation along with the BIOCRYO SYSTEM to have complete treatment session. The athletes feel comfortable in having the treatment on a variety of extremity injuries.

I would highly recommend THE BIOCRYO SYSTEM to any athletic trainer, physical therapist or coach.

Keep up the good work. If I can ever be of assistance, please don't hesitate to contact me.

Sincerely,

Mark "Buzz" Chisum Med LAT ATC
